Lending Materials to Staff, Students and Parents/Guardians of Home Schoolers

Materials are defined as books, magazines, videocassettes, DVDs, CDs, computer software and audio materials housed in an MTRSS school library.

Parents or guardians who home school their children in the district may borrow materials from the school libraries in MTRSS. These materials may be lent out under the following conditions:

1. The parent/guardian resides within the MTRSS or the staff member works for MTRSS.
2. Lending the materials does not disrupt the educational process at the school where the materials are housed.
